

## 3.2 - Innovation Ecosystem

### 3.2.1

"An Innovation ecosystem is a systematic innovation, methodological environment or sort of innovation philosophy" As Smt. K B Abad homoeopathic medical college is well established Homoeopathic medical institute imparting; every possible and all requisite for upcoming medical graduates and practitioner for future. Moreover, we also try to provides conducive environment to the students for research. We at KBAHMC are trying to instill all the required possible norms for establishing better Ecosystem for helping the upcoming Doctors to pursue the research/practice for concreting medical science to build the strong healthy nation. The graduates, while undergoing the internship are posed to the various clinical departments. For example, UG students are posted to the sub-district hospital where varieties of patients are visiting for consultation. Similarly, we do post the UG students to different nearby villages through peripheral Homoeopathic visit to gain maximum knowledge in rural practice which may enhance/update the information and lead the students to more advance treatment for the complaints faced by villagers. The PG students are also being exposed to the research-oriented activities like the journal reviews, seminar presentations, and self-directed studies in the post-graduate departments of our institute. We have also established the incubation center (Hospital) in our institute premises for encouraging research by the students of different levels i.e., UG and PG. this center is facilitated with computer aided laboratory with latest internet and information equipment. The incubation center is having the collection of theses till date for references for upcoming research aspirants. We do have ethical committee constituted to provide required help in research activities carried by the students with appropriate guidance from time to time. Further we are also having facility for accessing any technical help like drug analysis, drug testing etc. with the help of SSDJ Pharmacy College & all other MoU like CCRH, IIHP etc. We have already established incubation center in our institute

**Hospital:** Here the students are exposed to the clinics for acquiring every possible clinical knowledge, taking help of modern facilities like bounded Pathology, Radiology department having facility of USG, ECG etc. we also have physiotherapy, Yoga center to manage cases as required. We have one incubation center in our college for UG & PG students, helping them with any research work related to biomedical science. This center is also accolade with computer lab with internet, WIFI facilities for references etc. Another incubation center is

SNJB's Shri Suresh dada Jain Pharmacy College Lab, where the students are exposed to the detailed education of Medicinal plants & other elements carrying importance with its Pharmacology, Pharmacognosy, and Pharmacodynamics & Active Principals of the drug substances which are studied in Materia Medica. Hence the Medicinal properties studied theoretically, is verified practically in this center. Further we also expose & try to enhance clinical Knowledge through different Medical Camps conducted regularly, visit to the nearby villages, under our regular activities to cater services to the villagers for their health issues.

Following are the camps conducted

Number of camps being conducted under incubation center of ecosystem: 11
