

7.1.8 Inclusion And Situatedness

7.1.8(Q1M) Describe the institutional efforts/ initiatives in providing an inclusive environment i.e. tolerance and harmony towards cultural, regional, linguistic, communal, socioeconomic, and other diversities.

Number of Specific initiatives to address locational advantages and disadvantages

As our college is in rural area, it is only taluka place, where total population is approximately 15000 only, that are scattered in various nearby small villages, pada, vasti etc. So our management decided to give medical services in very low cost so that villagers can afford. In accordance to it we are serving society through our rural visits daily, reaching to all the people. not only rural visits service, we are extending to society even with regular homoeopathic camps, survey of diseases, awareness program conducted, our medical services reaching to villagers door step through our mobile dispensary.

As in remote area of villages services cannot be extended but we try to reach each and every individual, not only that literacy percentage is very less in nearby vicinity, medical awareness is poor, health, hygiene issues are prominent so our college have adopted villages every year and helping them by extending medical services, health awareness program, eye check up camps, personal home visits through our final year students and interns, through which they also learn to deal with people which is useful for them in future as well as they can see problems of society closely. So while, learning college is inculcating human values in students. Rural visits record is with hospital and adopted village record is with community department.

As well as college is always helping young generation of village for their admission process or in higher education by Counseling, admission committee doing this work.

Since few years swine flu, diarrhea, chicken-guinea like epidemic are occurring frequently in such epidemic college, hospital staff, final year and intern students playing key role in epidemics by dispensing free preventive medicine and treatment to patients as well as working for awareness.

Regular NSS camp activities going on for awareness of society. In present scenario organ donation is very important issue in society and need of time too, so college is organizing organ donation drive every year in college campus and in nearby vicinity.
